4	I was on a cruise in the Far East in January a lot of people were ill on the ship. My partner got symptoms first and then I did. We arrived home on Friday 24th January. On Monday 27th I was due back at work and felt awful so contacted my GP who told me to self isolate for 7 days and prescribed me a course of antibiotics which did help a bit. I wasn't tested but I feel there's a strong possibility I've had Coronavirus especially where I visited.	3/23/2020 3:27 PM
